

# Preliminary Assessment Report Project 3022761, 8333 55TH AVE NE

Assessment Completed: 12/1/2015

**Project Description:** Short Plat. Original: Vacant lot subdivision of single parcel into three parcels for 3 new SF

homes (one home per parcel).

**Primary Applicant: Kelly Mcshane** 

This report lists the results of a preliminary assessment of your project requirements by various city departments. It's based on the project characteristics described on your site plan and preliminary application form. If your project required a pre-application site visit (PASV), the results of that site visit are also included. The goal of this report is to help you create a complete submittal package and reduce the need for corrections once your application has been submitted.

# **Next Steps**

- 1. Review the requirements in this report and contact the staff members listed below with questions.
- 2. If a street improvement plan is required, develop and submit it to the Seattle Department of Transportation (SDOT). The Department of Planning and Development (DPD) will not accept your permit application until your street improvement plan is approved as 60% complete by SDOT. See <a href="SDOT Client Assistance Memo 2213">SDOT Client Assistance Memo 2213</a> for quidance about the 60% complete approval process.
- 3. Schedule an appointment for permit application intake with DPD. Please bring a copy of this report to your intake appointment.

# **Questions About This Report**

If you have questions about the information in this report, contact the appropriate city staff member for each section.

#### **DPD Drainage Requirements**

Arthur Thomas Richardson, (206) 684-3655, <a href="mailto:art.richardson@seattle.gov">art.richardson@seattle.gov</a>

#### **DPD Land Use Requirements**

Christina B Capestany, (206) 233-2170, <a href="mailto:tina.capestany@seattle.gov">tina.capestany@seattle.gov</a>

#### **DPD Preapplication Site Visit Requirements**

Kathleen H Wilson, (206) 233-7932, Kathleen.Wilson@seattle.gov

# **Seattle City Light Requirements**

Ray Ramos, (206) 615-1193, <a href="mailto:ray.ramos@seattle.gov">ray.ramos@seattle.gov</a>

#### **Seattle Department of Transportation Requirements**

Joel Prather, (206) 615-0772, joel.prather@seattle.gov

#### **Seattle Public Utilities Requirements**

Jim Mahady, (206) 684-5950, Jim.Mahady@seattle.gov

- General questions about the permit process: Contact the DPD Applicant Services Center (ASC) at 206-684-8850.
- User-friendly guides to city permitting processes: DPD and SDOT.
- Detailed zoning information.
- Visit our <u>permit type pages</u> for step-by-step instructions and forms for preparing your application and plans for review.

# Requirements

# **DPD Drainage Requirements**

The following requirements are based on the current stormwater and side sewer codes.

## **Existing Public Drainage Infrastructure**

Sanitary sewer main location: Private sanitary main on private property, west of short plat.

Sanitary sewer main size: 10-inch Storm drainage main location: None

#### **Drainage**

The drainage point of discharge (SMC 22.805.020) is located at: Other.

#### **Water Quality**

No requirements

#### Wastewater

All homeowners and building owners in King County's service area whose home or building was newly connected to the King County sewer system on or after Feb. 1, 1990 must pay a King County Capacity Charge

# **Permanent and Temporary Dewatering**

The footing drain (if part of building plan) point of discharge (<u>DPD DR 4-2011</u>) is located at the following: Other.

#### **Other Requirements**

This Short Plat does not front any right of way and does not have any access to public sanitary or storm
drainage infrastructure. Prior to short plat approval this project must show how it will access the sanitary
and storm drainage. Provide verification (easements) to allow this project access the sanitary and storm
drainage infrastructure. Seattle Public Utility easement along the east Pl of this short plat.

# **DPD Land Use Code Requirements**

#### **Land Use**

Based on the project scope and/or location of environmentally critical areas on the development site, SEPA may be required. See CAM 208 for more details.

Based on the preliminary site plan it appears the development does not meet land use code development standards. Modify the site plan to meet required development standards or submit a variance application. See CAM 210 for more details.

An arborist report may be required. See CAM 242 for more detail.

#### **Notes to Applicant**

SMC 23.53.005.A1 states, at least 10 feet of a lot line shall abut a street or a private permanent vehicle access easement meeting the standards of Section 23.53.025, or the provisions of subsection 23.53.025.F for pedestrian access easements shall be met. Appears this property does not abut a street. Variance required.

#### **Other Requirements**

Based on the preliminary scope of the project, DPD recommends a presubmittal conference prior to submitting an application. Details for preparing and submitting a presubmittal conference request form can be found at our Web site (<a href="http://www.seattle.gov/dpd/Publications/Forms/Building\_Permit/default.asp">http://www.seattle.gov/dpd/Publications/Forms/Building\_Permit/default.asp</a>).

# **Pre-Application Site Visit (PASV) Requirements**

PASV report requirements may be subject to additions, changes, or modifications by the department. The purpose of the report is to alert the applicant that there may be unusual or complex site conditions that trigger requirements from the department regarding this project. **The applicant is responsible for providing all required documents at the intake appointment.** If you have questions about this report or the PASV process, please contact the DPD Site Development Team at (206) 684-8860.

**Note:** Any project application associated with the development site can utilize the results from this PASV if the application is accepted by DPD within 24 months of the above inspection date. After 24 months, the applicant must apply for another PASV. No extensions will be granted.

# **ECA Mapping Unit and Type**

This project site appears to include the following ECAs and/or buffers:

Steep slope

Potential slide

Riparian management area

Wetland

#### **Earth Disturbance**

If excavation has the potential to encroach on adjacent property in order to facilitate construction activity, please provide documentation of consent from the adjacent property owner. Show area of proposed encroachment on the submitted drawings and detailed cross-sections.

If temporary cuts greater than 1h:1v will be required in order to facilitate construction activity, please provide a geotechnical engineer's verification that soil conditions allow cuts to stand unsupported. Include detailed cross sections.

Please show all existing and proposed retaining walls/rockeries and the exposed height.

If shoring will be required, please provide submittals by geotechnical and structural engineers and show the proposed system on the submitted drawings. Include detailed cross sections.

# Existing ROW Conditions 56TH PL NE

Street conditions:

Asphalt paving

Unimproved

Visible pavement width is: 18 to 19 feet

Curb conditions:

No curb adjacent to site

A storm inlet does not appear to be located <350 ft from the site and prior to crossing a public right of way.

#### **Potential Impacts to Seattle Parks Property**

No parks property in vicinity

#### **Tree Protection**

Trees greater than 6 inches in diameter as measured 4.5 ft above ground are present on the site but not shown on the site plan. Show the dripline of

- 1) all trees on the site,
- 2) adjacent trees that encroach on the site that are greater than 6 inches in diameter as measured 4.5 ft above ground, and
- 3) all trees located in the adjacent ROW.

Include common and scientific names for all trees shown. For more information, see <u>Director's Rule 16-2008</u> and <u>Tip 242</u>.

#### **Construction Stormwater Control**

All projects with earth disturbance, regardless of size, require temporary and permanent stormwater control in accordance with the Construction Stormwater Control (CSC) Technical Requirements Manual (<u>DR 16-2009</u>, <u>Volume 2</u>).

# Show the following on the **Construction Stormwater Control** and Soil Amendment Standard Plan:

Place compost socks, compost berms, filter fabric fencing, straw bales, straw wattles, or other approved perimeter control BMPs to eliminate construction stormwater runoff.

Show the location of a stabilized construction access to the site; show methods to eliminate uncontrolled conveyance of mud and dirt into the right of way (ROW).

Cover bare soil with compost blankets, straw, mulch, matting, or other approved equal to control construction stormwater runoff.

Cover stockpiles and bare slopes with compost blankets, tarps, matting or other approved equal to control construction stormwater runoff.

A First Ground Disturbance inspection is required before any ground disturbance related to this permit, including demolition, tree cutting, clearing, grubbing, and grading. After your permit is issued, schedule an inspection by calling (206) 684-8900 or online at http://web1.seattle.gov/DPD/InspectionRequest/default.aspx.

# **Inspectors Notes**

Site is between the top of a Steep Slope Critical Area and the edge of the golf course. A portion of the site itself is a mapped Steep Slope Critical Area. Access to 56th PI NE is from NE 77th St off Sand Point Way NE, and 56th Ave NE, or via a series of switch-back curves. Most of the access route is mapped ECA Potential Slide and/or ECA Steep Slope Critical Area. According to Geocortex, the 56th PI NE right-of-way is between 18 and 19 feet wide. 56th PI NE dead-ends at what appears to be a trail head, on property apparently owned by Sand Point Country Club. The only other access is via the golf course. Casual examination of the access route shows that this route is the only access to a fair number of homes. There may be conflicts between residents' vehicle traffic habits and movements of construction-related vehicles/equipment.

# Standard Submittal Requirements for Projects in an ECA

Submit a geotechnical report with the permit intake submittal package. Geotechnical report must be signed and stamped by a geotechnical engineer licensed in the State of Washington per <u>SMC 22.170.070</u>, <u>SMC 25.09</u>, and <u>Directors Rule (DR) 18-2011</u>.

Provide a topographic survey with 2-foot contours on and within 25-feet of the property, stamped by a licensed land surveyor (see 25.09.330A)

Delineate the clearing limits on the site plan

Provide a vegetation restoration plan per SMC <u>25.09.320</u>, <u>Tip 331</u> and <u>Tip 331A</u>. **Prior to any vegetation removal in the critical area, review, approval, and a preconstruction meeting is required** 

Delineate the steep slope critical area on a site plan based on the survey (per SMC 25.09.020 A3b(5)). Provide area calculations for the steep slope delineation.

Show the steep slope buffer. Generally, the buffer is 15-feet from the top and/or toe of the slope Construction activity area appears to be within the steep slope critical area and/or its associated buffer. A steep slope variance may be required (see SMC 25.09.180E.1)

Show 100-foot riparian management area on plans

**Note:** No construction activity is allowed in the non-disturbance buffer area and limited development is allowed in the outer portion of the riparian management areas. Refer to SMC <u>25.09.200</u> for more information.

The site appears to have areas with wetland vegetation and/or seasonal or permanent saturation. The permit application should be routed to a DPD wetland specialist for further review.

Submit a Wetland Site Assessment Report prepared by a qualified wetlands professional that evaluates and identifies wetlands within 100 feet of the subject property line for development proposed within 100 feet of a wetland (see SMC <u>25.09.160</u>).

Prepare a wetland delineation report per <u>Director's Rule 19-2006</u>, <u>Requirements for Wetland Site Assessment Reports</u>.

# Seattle City Light Requirements

#### **Easements**

SCL power easement may be required. Property survey may be required at project's expense.

Other requirements: Please consider the following when dividing and developing this site: City Light may need to extend underground distribution to serve the sites. As separate parcels and development sites, each parcel must have a separate service. An easement sufficient in width for an overhead or underground service is required. Clearance from permanent structures and other utilities is also required. Please contact your Electrical Service Representative well in advance of construction for clarification and electrical service advice.

#### **Notes to Applicant**

For future property development, please contact the Electrical Service Representative for your area several months before new service is required to determine your electric service design, service location and what kind of service is available at the building site. An Application for Electrical Service must be submitted to Seattle City Light. Your Electrical Service Representative is: Sandra Fernandes, 206-684-8064, sandra fernandes@seattle.gov. Be advised that it is the applicant's responsibility to seek guidance from SCL. Failure to contact SCL early in the permit process could severely impact your project's scope, schedule and budget. This responsibility rests solely with the applicant.

# **SDOT Requirements**

Based on the information provided at this time, it appears that no street improvements are **required**. All work in the right-of-way requires a permit. Therefore, if you are planning discretionary improvements you should contact SDOT as soon as possible. Be advised that it is the applicant's responsibility to seek guidance from SDOT Street Use should the scope of the project change, or should the applicant become aware of proposed construction in the ROW. Failure to contact SDOT at your earliest convenience could severely impact your project's scope, schedule and budget. This responsibility rests solely with the applicant.

# **SPU Requirements**

Based on the information provided at this time, it appears that no street improvements are required. Be advised that it is the applicant's responsibility to seek guidance from SPU should the scope of the project change, or should the applicant become aware of proposed construction in the ROW. Failure to contact SPU at your earliest convenience could severely impact your project's scope, schedule and budget. This responsibility rests solely with the applicant.

For all multifamily, commercial, and industrial properties, the requirements for solid waste storage and pickup are outlined in SPU CAM 1301, available on the web at: <a href="http://www.seattle.gov/util/stellent/groups/public/@spu/@csb/documents/webcontent/cos 004542.pdf">http://www.seattle.gov/util/stellent/groups/public/@spu/@csb/documents/webcontent/cos 004542.pdf</a>. For questions about solid waste requirements, contact Liz Kain, (206) 684-4166, <a href="mailto:Liz.Kain@seattle.gov">Liz.Kain@seattle.gov</a>.

# **Other Requirements**

Owners of residential property occupied by a tenant who will be displaced by housing demolition, substantial rehabilitation, change of use, or removal of use restrictions may need to obtain a Tenant Relocation License. Refer to DPD Tip 123, Seattle's Tenant Relocation Assistance Ordinance, for further information and instructions or call (206) 684-7979.

If your project involves additions or modification to or demolition of an existing building that contains four or more dwelling units or 4,000 square feet or more of non-residential area, and the building is a designated historic landmark or is 50 years old and meets the criteria set forth in SMC 25.12 for landmark designation, SEPA is required. Please contact the Department of Neighborhoods at (206) 684-0228 or www.seattle.gov/neighborhoods/preservation to determine if your building is a designated landmark of if a referral is necessary to determine if the building meets the criteria in SMC 25.12. Refer to Tip 208 for information regarding the application requirements for a SEPA review and Tip 3000 for information regarding landmarks and historic preservation.

If the scope of your proposed project changes before your DPD intake appointment or SDOT street improvement plan application, the requirements in this report may change. If there are municipal code and ordinance changes before our DPD intake appointment, the project must meet the new code requirements. Additional street improvement requirements may be triggered if a permit application for a development project on adjacent property is also undergoing review.

Please be aware that all persons or companies working within the City limits, including all contractors, subcontractors, permit expeditors and other service providers are required to possess a valid City of Seattle business license. This license is required in addition to any other licenses required by the State of Washington, such as a contractors' license or state business license. For more information about City of Seattle business licenses, please contact inspector Michale Crooks at 206-684-8871, <a href="Michale.Crooks@seattle.gov">Michale.Crooks@seattle.gov</a>, or visit the Licensing and Tax Administration Division website.
